

iGUIDE[®] Instant ⚡

Affordable 3D virtual tours with interactive floor plans in minutes!

73% of buyers expressed that a 3D tour gives them a better feel for the space than static photos alone.¹

✓ Speedy delivery

Create a 3D virtual tour with an interactive floor plan in less than 20 minutes.²

✓ Simple to use

User-friendly interface and interactive floor plan provide a seamless experience.

✓ Superior quality

Comprehensive marketing solution with custom branding and analytics.

Creating an iGUIDE Instant is as easy as 1-2-3

Capture

Photo-document and measure the property details with the iGUIDE PLANIX camera system.

Process

Our proprietary AI interprets the property data delivering your 3D virtual tour and floor plan in minutes.

Share

Share your 3D virtual tour and interactive floor plan across web and social platforms.

Don't settle for anything less than the fastest, easiest and most cost-effective 3D virtual tour solution.

Unleash your potential and connect with an iGUIDE specialist to learn more.

*iGUIDE Instant is currently in BETA and only available in the United States. The machine-generated floor plan quality relies on the input data the camera operator provides. iGUIDE Instant is limited to properties no greater than 5,000 sq ft and projects with no more than 75 scans.

¹Buyers: Results from the Zillow Consumer Housing Trends Report 2023

²Based on a 3,000 sq ft property.

Why settle for less when you can have it all?

With iGUIDE Instant, create 3D virtual tours with interactive floor plans for less.
