

# iGUIDE Site Survey & Measurement Program

Accurate site surveys.  
Fast turnaround.  
Nationwide coverage.

## Why iGUIDE?

- ✓ **Enhanced speed**  
Site data collection in days, not weeks
- ✓ **LiDAR accuracy**  
Measurement uncertainty  $\leq 0.5\%$
- ✓ **Immersive visuals**  
360° walkthroughs inside and out
- ✓ **Streamlined execution**  
Capture all details the first time
- ✓ **Strengthened collaboration**  
One dataset, everyone aligned

iGUIDE delivers fast, accurate site surveys and as-built documentation from a single visit, giving your team the data, visuals and drawings they need to move projects forward confidently.

*"Before iGUIDE, we struggled with unreliable vendors, higher costs, and the need for repeat site visits. iGUIDE's Service Pro network captures all the data we need, and iGUIDE delivers CAD drawings and 3D tours, streamlining our process. iGUIDE's fast, efficient, and affordable, saving time and money."*

AR Eissa, Sr. Construction Manager, BarBurrito

## 3 Easy steps to get started

### Kick-off

[Submit a project request](#)  
and our team will create your quote for approval.

### Site-Visit

(Within 5 business days of approval)  
Our iGUIDE Field Technician will scan and document your property on-site.

### Delivery

(Within 7 business days of approval)  
We'll deliver your iGUIDE Report, complete with drawings, photos, and a virtual walkthrough.

## Deliverables by Project Stage

### Pre-Design: iGUIDE CAD Package

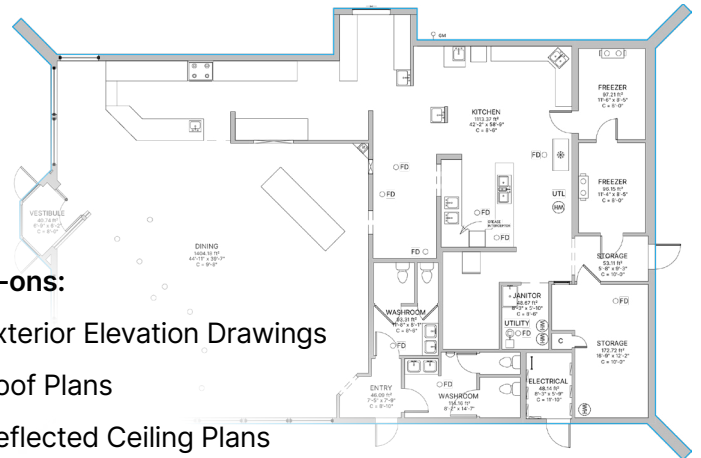

A complete site survey capturing interior, exterior, rooftop, and key equipment details. All data is compiled into a single CAD package, providing one source of truth to support faster, more accurate, and better-informed decisions.

#### Deliverables included:

- ✓ As-Built Floor Plans (DWG & PDF files)
- ✓ Dimension Plans
- ✓ 3D Virtual Walkthrough
- ✓ Photo Tags of Incoming Equipment

#### Add-ons:

- + Exterior Elevation Drawings
- + Roof Plans
- + Reflected Ceiling Plans
- + 3D Model (Revit file)

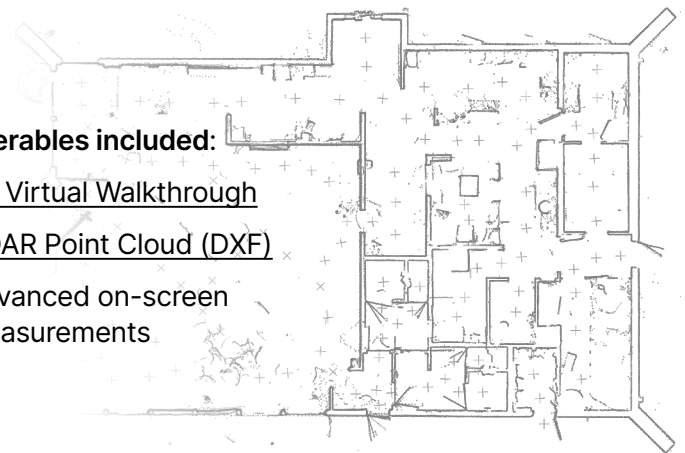

### Mid-Construction: iGUIDE Radix

Our mid-construction site inspection provides users with fast and efficient visual documentation.

The online interface and tools with lidar point cloud is shareable and can be used to view and measure a site.

#### Deliverables included:

- ✓ 3D Virtual Walkthrough
- ✓ LiDAR Point Cloud (DXF)
- ✓ Advanced on-screen measurements

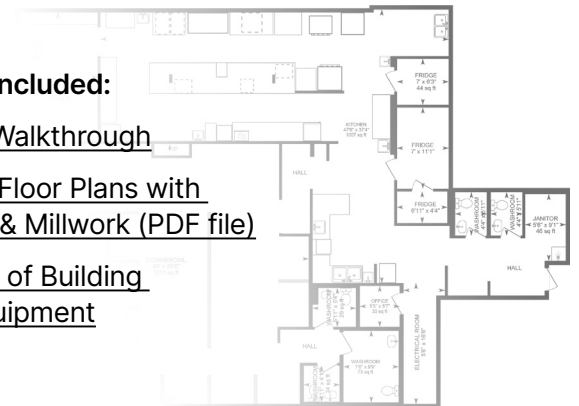

### Post-Construction: iGUIDE Premium

Our post-construction site walkthrough provides an immersive virtual experience that lets users explore, understand and manage a space 24/7 from any location.

#### Deliverables included:

- ✓ 3D Virtual Walkthrough
- ✓ Schematic Floor Plans with Equipment & Millwork (PDF file)
- ✓ Photo Tags of Building System Equipment
