Student Design Competition 2019: "Tapping the Future"

1 00 11 16 Invitation to the CSC Student Design Competition

1.1 Invitation

- 1.1.1 Construction Specification Canada (CSC) Grand Valley and Toronto Chapters invite you enter into a design competition. This competition is open to all current post-secondary school students in Ontario with an interest in construction-related activities such as architecture, landscape architecture, engineering, interior design, construction management, innovative products, and manufacturing.
- 1.1.2 Entries can be submitted by individuals, or by teams consisting of up to 4 people.

1.2 Client

- 1.2.1 Your 'Client' is the CSC, and the chief organizing committee is comprised of the Grand Valley and Toronto Chapters.

1.3 Project Description and Scope

- 1.3.1 Location: 1655 Dupont St, in the Junction Triangle area of Toronto.
- 1.3.2 The Building is a historic 1929 brick and beam building once used as a manufacturing facility for Viceroy Rubber and Plastics. With a heritage façade on two sides, the building lies alongside the West Toronto Railpath at the intersection of Dundas Street and Dupont Street W within walking distance to the Bloor-Danforth subway and UP express. The space is 200,000 sq. ft. in a mix of rectangular and triangular shaped floor areas gathered around a courtyard. For the purpose of this challenge, students are to concentrate on design for only the smaller Dupont St. building and not large triangular back building.
- 1.3.3 Focus/Theme: This year's theme is hospitality. The site could include amenities like a bar, boutique hotel, restaurant, etc. The sky is the limit.
- 1.3.4 Community: The competition this year continues to embrace the context of being current and relevant. The current owner of the building has agreed to partner with CSC. Our competition will run parallel to the actual renovation of this building to upgrade common areas and prepare shell space for future tenants.
