

— Transform the way you manage facilities remotely

Generate accurate building information quickly, easily and securely

Easily generate accurate building information

Streamline your workload and enhance collaboration

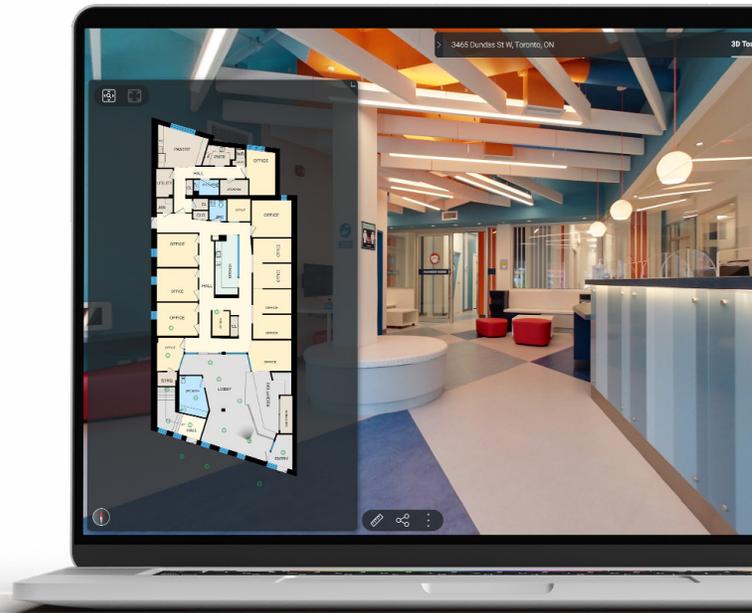

In today's dynamic world of facility management, staying ahead requires innovation. iGUIDE empowers facility managers with an efficient way to swiftly and accurately generate comprehensive building data like no other tool in your tool belt. iGUIDE is designed to streamline your workload and enhance collaboration with stakeholders.

iGUIDE helps you save time and cut costs

No more unnecessary repeat site visits

Optimize efficiency and cost-effectiveness with iGUIDE's precise floor plans and virtual walkthroughs. Our advanced camera technology transforms facility management, delivering 24/7 virtual availability of your facility from anywhere you can get online.

The iGUIDE camera system combines the powerful technology of a 360° digital camera with lidar technology, taking thousands of measurements instantly. The result is a virtual walkthrough that allows you to take precise measurements and document assets from anywhere.

i View a facility from anywhere at anytime.

Easily capture and document your facility

Precise floor plans: Capturing thousands of measurements per scan, each facility floor plan is accurate and available in various formats.

Property details: Provides room measurements, dimensions and total square footage for space planning purposes, including estimating repairs or renovations.

3D immersive tour: Virtually walk through a real-world space to view conditions and easily locate critical assets.

Measurement tool: Take custom measurements anytime and anywhere with the virtual walkthrough.

Real-time tagging: Identify equipment, features and deficiencies as well as links, files or images.

Photos: Option to include still photos for additional documentation.

Why use iGUIDE?

Save time and reduce costs

Reduce costly on-site visits with unlimited remote viewing. Fast and efficient documenting process. Capture 2,500 square feet in less than 15 minutes.

Efficiently communicate

Easily identify any problem areas. Estimate and share job scope and conditions with stakeholders.

Convenient 24/7 access

View a facility from any browser or device anytime and anywhere.

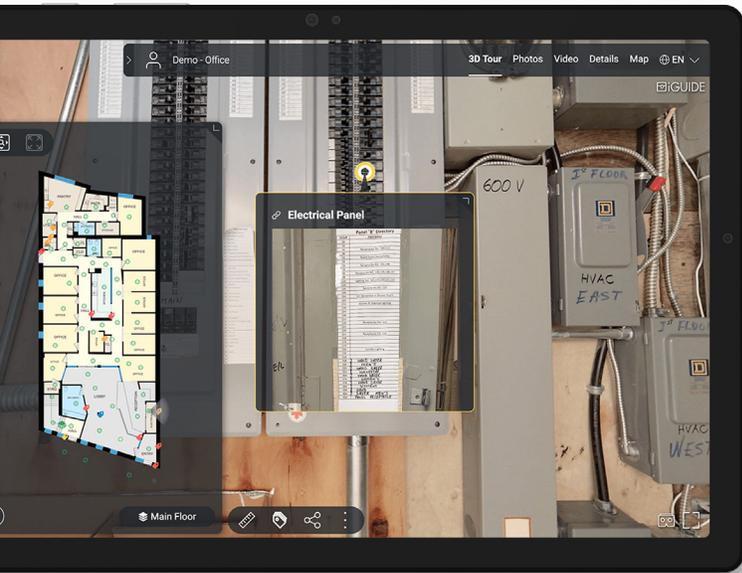

Visual documentation

Create a permanent digital record for reference of real-world facilities.

This product amazes me every time I use it. It works flawlessly, and it's such a joy to have and use for my work. I shot a 53,000 sq ft office space, and... it was easy and took little effort.

- Roger Thorpe

A turn-key facilities management tool:

- ✓ Saves time & cuts costs
- ✓ Accurate data & virtual measurements
- ✓ Manage property remotely
- ✓ Collaborate with third parties
- ✓ Create digital tags
- ✓ Integrate data with building management systems

The most practical way to generate accurate building information quickly

iGUIDE offers a practical, time-saving solution for precise building information. Our technology provides real-time insights, streamlining operations and boosting efficiency. Evaluate spaces on your schedule, allowing for meticulous planning and precise space management. Experience the power of iGUIDE to revolutionize your facilities management. Start today!

About us

Founded in 2013, in Kitchener, Ontario, Canada, Planitar Inc. is the maker of iGUIDE, a proprietary camera and software platform for capturing and delivering immersive 3D virtual walkthroughs and extensive property data.

Why iGUIDE

iGUIDE is the most efficient system to map interior spaces and features accurate floor plans, measurements and reliable property square footage. By integrating floor plans and visual data, iGUIDE provides an intuitive and practical way to digitally navigate and explore built environments.
