

Agent: How to Create an Instagram Featured Property Post

The **purpose** of Featured Property Posts are to:

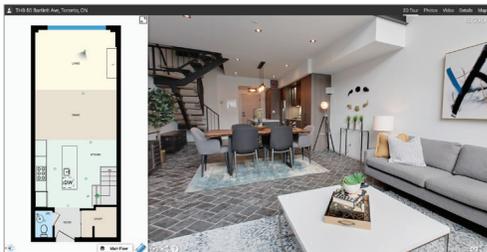

- Build your social network and attract new clients by promoting your listing using our engaging iGUIDE Technology.

The **goal** of Featured Property Posts are to:

- Create meaningful content that will build engagement and market your listings.
- Drive engaged contacts to your website.

Step One: Choose your iGUIDE

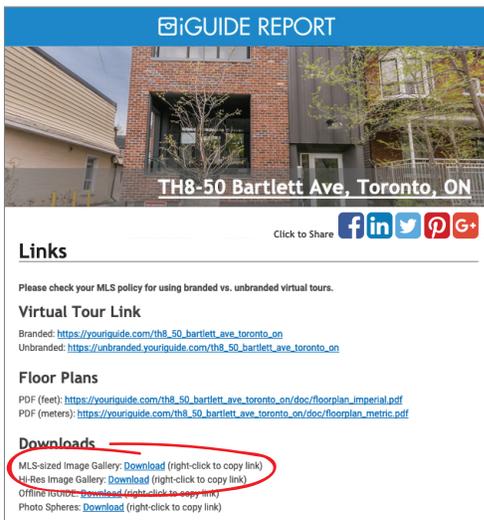

1

- Feature your outstanding and unique properties
- Create a post for each iGUIDE to start building a social network

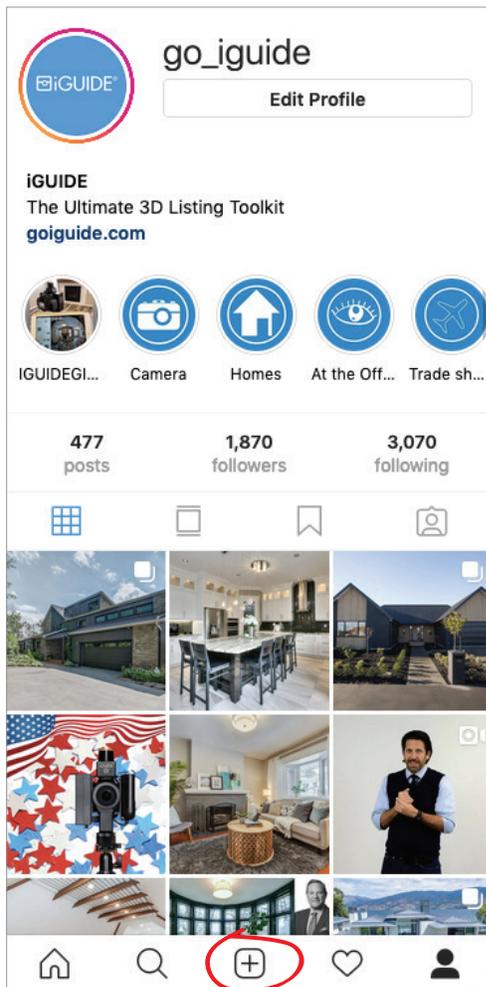

Step Two: Create your Feature Property post

2

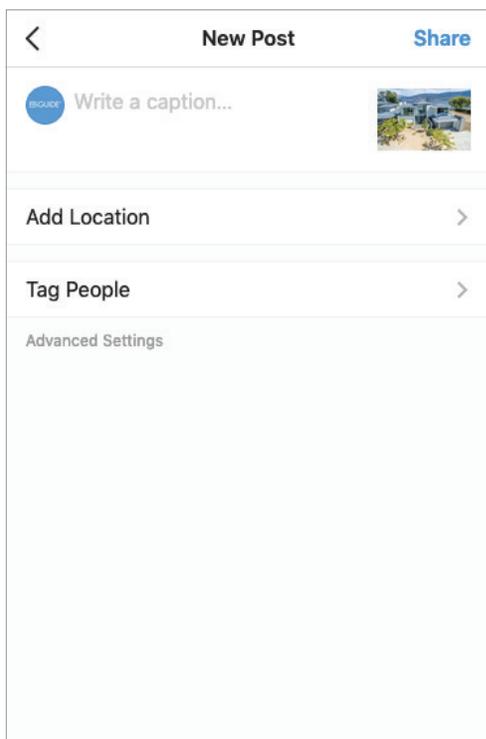

- Open your iGUIDE Report
- Download your photos
- Select and rename:
 - 8 home images
 - 2 floor plan images
- Send those images to your phone (ex. email) and save in your camera photo library

3

- Open Instagram on your mobile device
- Click on the plus icon in the tab bar to create a post

4

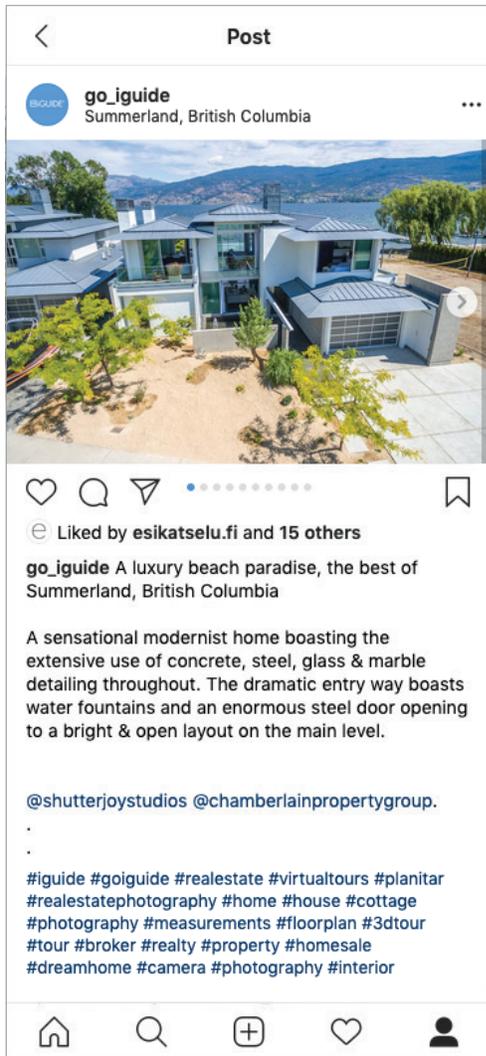

- Select the photos you sent yourself, that you have saved, in your camera photo library

5

Add your message to the post by clicking on the “write a caption section”:

- a) First Call to Action** → Add a catchy one liner to attract attention
- Take a look at this luxury beach paradise, the best of Summerland, British Columbia
- b) Property Highlight** → Pull a highlight from the listing description to focus on one feature
- A sensational modernist home boasting the extensive use of concrete, steel, glass, and marble detailing throughout. The dramatic entryway boasts water fountains and an enormous steel door opening to a bright and open layout on the main level.
- c) Recognize Stakeholders** → Tag relevant stakeholders and encourage them to share the post with their network
- @agent @brokerage @company @iGUIDE
- d) Add Hashtags** → Add relevant hashtags to your post
- #realestate #city #dreamhome #home #forsale

6

- When you are finished with your message, add in the location of the property
- Once you are happy with your post click on [Share](#) to post
- After your post is published and you start getting user engagement, make sure you are responding to comments with either a like, emoji, or answer
